

THE NEXT GENERATION HYDRATION

REFILL+

Introducing the Aquablu REFILL+, a smart hydration system delivering purified, vitamin-enriched flavored drinks. Sparkling, still, or chilled, it's all the refreshment of bottled drinks, minus the plastic waste.

BOOST WELLBEING

86% of office workers aren't hydrated enough, impacting productivity and well-being. Proper hydration can boost productivity by 14%. The zero-sugar drinks from the Aquablu REFILL+ make staying hydrated effortless keep you coming back for more.

WAR FOR TALENT

By 2025, 27% of the total workforce will be Gen-Z of which 46% don't drink coffee at work. Improve your approach to topics like health and sustainability, and stay relevant for the next generation while retaining your existing talent.

SAVE SINGLE USE PLASTIC

With the REFILL system you save plastic with every sip. Our monthly impact report shows how many plastic bottles and CO2 emissions you've saved, allowing everyone to track their positive impact.

FUTURE PROOF YOUR OFFICE

A well-designed workspace boosts efficiency. Prepare for the future by integrating smart technology that enhances the environment and attracts top young talent.

YOU'RE IN GOOD COMPANY

SOME OF OUR CURRENT CLIENTS

Schiphol

"Aquablu is a very nice asset for us; guests drink less coffee, tea, soft drinks and bottled water and fill their reusable bottles with water or flavored water of their choice. This results in less coffee and tea being consumed, we generate less plastic waste with PET bottles, we use fewer soft drinks cans and we offer our guests a tasty and healthy alternative. For us, this certainly contributes to our journey towards the healthiest and most sustainable experience for the guest. Aquablu is very popular with our guests and is experienced as a welcome solution by everyone."
